

CONCORDIA UNIVERSITY

LIBERAL ARTS COLLEGE

A DEMANDING B.A. PROGRAMME FOR SERIOUS STUDENTS

Liberal Arts College is a unique new university structure in Montreal and across Canada. Its combined B.A. programmes link required work in an integrated Core Curriculum with advanced disciplinary or area study. The Core Curriculum's series of integrated seminars ensure demanding work in the major areas of human knowledge and study—the humanities, social sciences, art, music, and scientific thought. All Liberal Arts College programmes stress language competence, research skills, and writing ability.

Liberal Arts College is housed in its own brownstone on Concordia University's downtown Sir George Williams campus. 2030 Mackay St. groups together student study areas, a library, common room, and lounge. All seminars are given in the College building, in which the staff of resident Fellows also maintains its offices. The Mackay St. centre is also the focus of a rich programme of extra-curricular activities, visiting speakers, and cultural events.
